

Inventions In Egypt

By
Anton

Introduction

Ancient Egyptian Inventions

- Egyptian paper
- The lock
- Preserving bodies

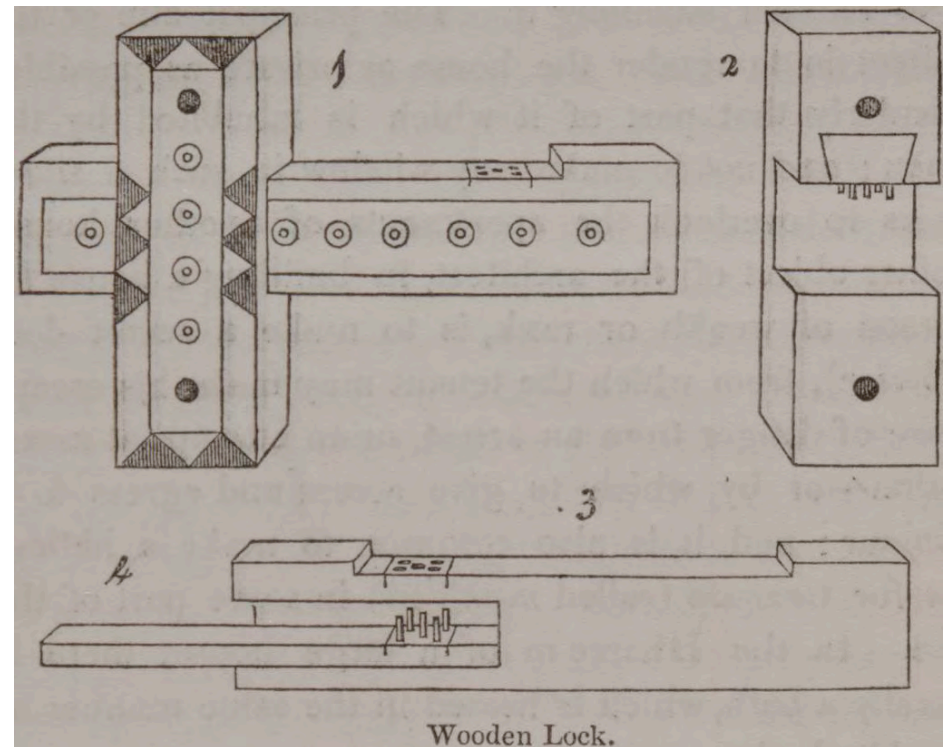

The Famous Paper

- Egyptian paper was made from papyrus
- The papyrus grew beside the Nile
- The papyrus was easier to write on

The lock

- The lock was invented in ancient Egypt
- The lock worked very simply
- To close the lock you would just put in these pins
- To open the lock you just had to slide the key and the pins come out

Mummification

- Ancient Egyptians invented Mummification
- By having invented mummification their body could preserve for millions of years of years
